**Twisted Cording:** Make 2

Cut 10 pieces 40" long. Take 5 pieces, tie a knot in one end and anchor. Twist clockwise until it starts to kink. Holding tightly to the end, put your finger in the middle to weight it down, while bring the two ends together. Holding the two ends together let the cord twist together from the middle. Repeat this procedure for second cord.

Thread cords through eyelets of purse. Take one end of each cord and attach the tassel. When tassel is attached take the knit piece and sew it to the top part of tassel. This will cover the joining of the two cords and tassel. Repeat this for other side.
